

Virtual Programming Parent/Guardian Consent Form

In an effort to continuously serve members during a Club closure and to provide your child with more program enrichment, Boys & Girls Clubs of Greater Milwaukee is providing distance-based and in-Club virtual programming for Club members, through which Club staff will communicate and facilitate program activities through online platforms.

BGCGM will use software, tools and applications provided by third parties that members, parents/guardians and/or staff will access via the Internet and use for purposes of communication and programming.

These platforms include: Zoom meeting, Google Classroom, You Tube, Facebook, and MyFuture.net and more. These applications will be used for video conferencing, group lessons, chats, and advising, and sharing of projects and lessons. Thirdparty applications will also be used at times.

This letter seeks consent for your child to utilize these online platforms for distance-based and In-Club, virtual Club program purposes.

All that is needed to get started from home is access to a computer, mobile phone, iPad or Chromebook and an internet connection.

In the Club, your child will be provided with a Chromebook and other technology in the classroom. Our commitment to keeping the young people we serve safe is always our number one priority. BGCGM will actively monitor member activity and will provide internet safety lessons for your child.

By continuing with registration, you give permission for your students to participate in distance-based and in-Club online Club experiences at Boys & Girls Clubs of Greater Milwaukee.
